Crane Radio Kit – 1 (APP100)

Input Voltage: 5-10VDC
Inputs: E-stop
Heartbeat
Outputs: 1 logic level
1 open collector (100mA)
Applications: Battery powered equipment
Part Number: APP100

Crane Radio Kit – 2 (APP101)

Input Voltage: 5-10VDC
Inputs: E-stop
Heartbeat
Outputs: 1 logic level
1 open collector (100mA)
Applications: HBC Spectrum Remote Control
Part Number: APP101

Crane Pendant Kit – (APP102)

Input Voltage: 12-240 VAC/DC

Inputs: E-stop

Outputs: 2 Relays (0.5A) E-stop and Start

Applications: Crane Pendants,
Small fixed equipment (presses,
lathes, etc)

Part Number: APP102

Vehicle Kit – (APP103)

Input Voltage: 8-36 DC

Inputs: E-stop
Heartbeat

Outputs: 1 Relay, NO/NC (10A)

Applications: Forklifts
Light vehicles
PLC based equipment

Part Number: APP103

Door Kit – (APP105)

Input Voltage: 7-24 VDC

Inputs: None

Outputs: Door Strike Interface

Applications: Door to store rooms, tool stores,
Hazardous equipment boxes, etc.
(Lock Supplied Separately)

Part Number: APP105

Fixed Equipment Kit – (APP106)

Input Voltage: 110-440VAC

Inputs: E-stop

Start

Outputs: 2 x 440V, 16A solid state relays

Applications: Large fixed equipment
Hydraulic power packs
Break out machines

Part Number: APP106

AccessPoint Manager Software License – (APL100)

Reader kit supplied with first year's subscription

Part Number: APL100

AccessPoint Cards – (APC100)

Programmable RFID card for use with AccessPoint

Part Number: APC100

Note: Custom artwork available at additional cost.
Minimum quantities will apply

Link-2 USB Bluetooth Modem – (LINK2)

Long range USB Bluetooth modem for configuring Whiting Passport devices using a laptop computer (Laptop not supplied)

Part Number: LINK-2

AccessPoint Dual Card Holder and Lanyard Set – (APCH10)

Card holder for 2 – 3 cards that are locked in place by a semi-removable tab. Comes with a lanyard.

Part Number: APCH10
